

Gross Anatomy Tenure Track Faculty Position Department of Anatomy and Cell Biology

The Department of Anatomy and Cell Biology invites applications for a tenure-track appointment at the rank of Assistant Professor, effective July 1, 2006.

The successful candidate will contribute to the teaching of gross anatomy within a new integrated biomedical science curriculum in the undergraduate medical program. Preference will be given to candidates with previous teaching experience in human gross anatomy. Applicants must have postdoctoral training and a strong research program that complements existing departmental strengths (cell and molecular biology, developmental biology, neurobiology, biomedical imaging). The Canadian Light Source, Canada's national synchrotron facility is located on the University of Saskatchewan campus and will have one of only a few dedicated biomedical beamlines in the world. Therefore candidates whose research program would employ one or more synchrotron technologies for biomedical imaging are especially encouraged to apply.

The University of Saskatchewan offers a full range of programs, both academic and professional, in thirteen colleges including seven in the life sciences. For further information about the Department and its programs, please see <http://www.usask.ca/anatomy/>.

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority. The University of Saskatchewan is committed to Employment Equity. Members of designated groups such as women, Aboriginal people, people with disabilities, and visible minorities, are encouraged to self-identify on their applications.

statement of previous teaching experience in human gross anatomy, a description of research interests, curriculum vitae and the names of three referees who could be contacted for an academic reference. Please submit applications by June 15, 2006 to:
