ALL SUMMER

Whether you are working on fellowship proposals or job applications or just want a jump start to get the basic materials in tip-top shape, summer is a great time to work with Graduate College staff.

One-on-One Proposal Advising

Our staff offer individualized reviews of draft proposals for external grants and fellowships. Drafts must be submitted to the Office at least one month before the funder's deadline.

See: www.grad.illinois.edu/extfellowships/advising

Individual Career Advising Appointments

Career advisers experienced in working with graduate students and postdocs can assist you with career exploration, networking, and the job search process. We advise students on application materials, including résumés, CVs and cover letters.

See: www.grad.illinois.edu/careers/advising

Registration and other details at:
